

Brand Guidelines

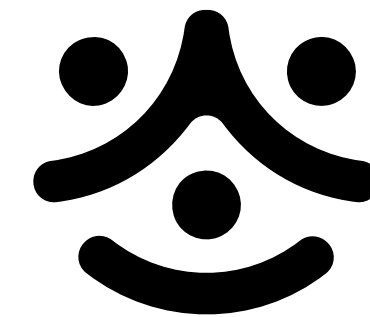

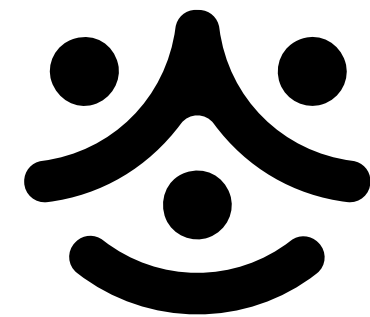

Primary Logos

The Morgan Storm primary logo is typographic and should always appear in title case. It can be used on its own or paired with the supporting descriptor "Ayurvedic Wellness Counselor" beneath it, depending on the context and space available. When there is little horizontal space, the logotype can be stacked as an alternative.

Morgan Storm
AYURVEDIC WELLNESS COUNSELOR

Morgan Storm

The Dhi Sangha primary logo is an abstract symbol representing community, connection, and shared wisdom. The secondary logo introduces a typographic lockup using the same Mollgan typeface featured in the Morgan Storm wordmark, creating a visual relationship between the personal brand and the larger sanctuary identity.

Typøgraphy

Mollgan is the primary typeface used across both brands. It is a decorative display serif featuring expressive ligatures that add elegance and personality to the wordmarks. Ligatures are encouraged where appropriate, as they enhance the visual identity and help maintain a refined, cohesive look.

Galdern Light is used for supporting text, including descriptors, subheads, and longer copy. Additional weights from the Galdern family may be used to create hierarchy while maintaining consistency throughout the brand.

Color Palette

The palette is centered around a calming teal, chosen to evoke clarity, balance, and grounded energy. Supporting tones range from soft mist hues to deeper ocean tones, allowing the Morgan Storm brand to express depth through gradients while giving Dhi Sangha a refined monochrome foundation. Neutral accents provide warmth and legibility across print and digital applications.
